SCENTED CANDLES

Nothing is as pleasant as entering a home or a room where, even before our eyes have adjusted to the attractive lighting, we are greeted by a wonderful fragrance. Fragrances, perhaps even more than visual aspects, tell something about the way we live as well as our character. Moreover, straight away they bring us into the right mood. Scented candles, through their pleasing aromas, add that extra something to candles, they offer a new experience: the candle experience.

UNSCENTED CANDLES

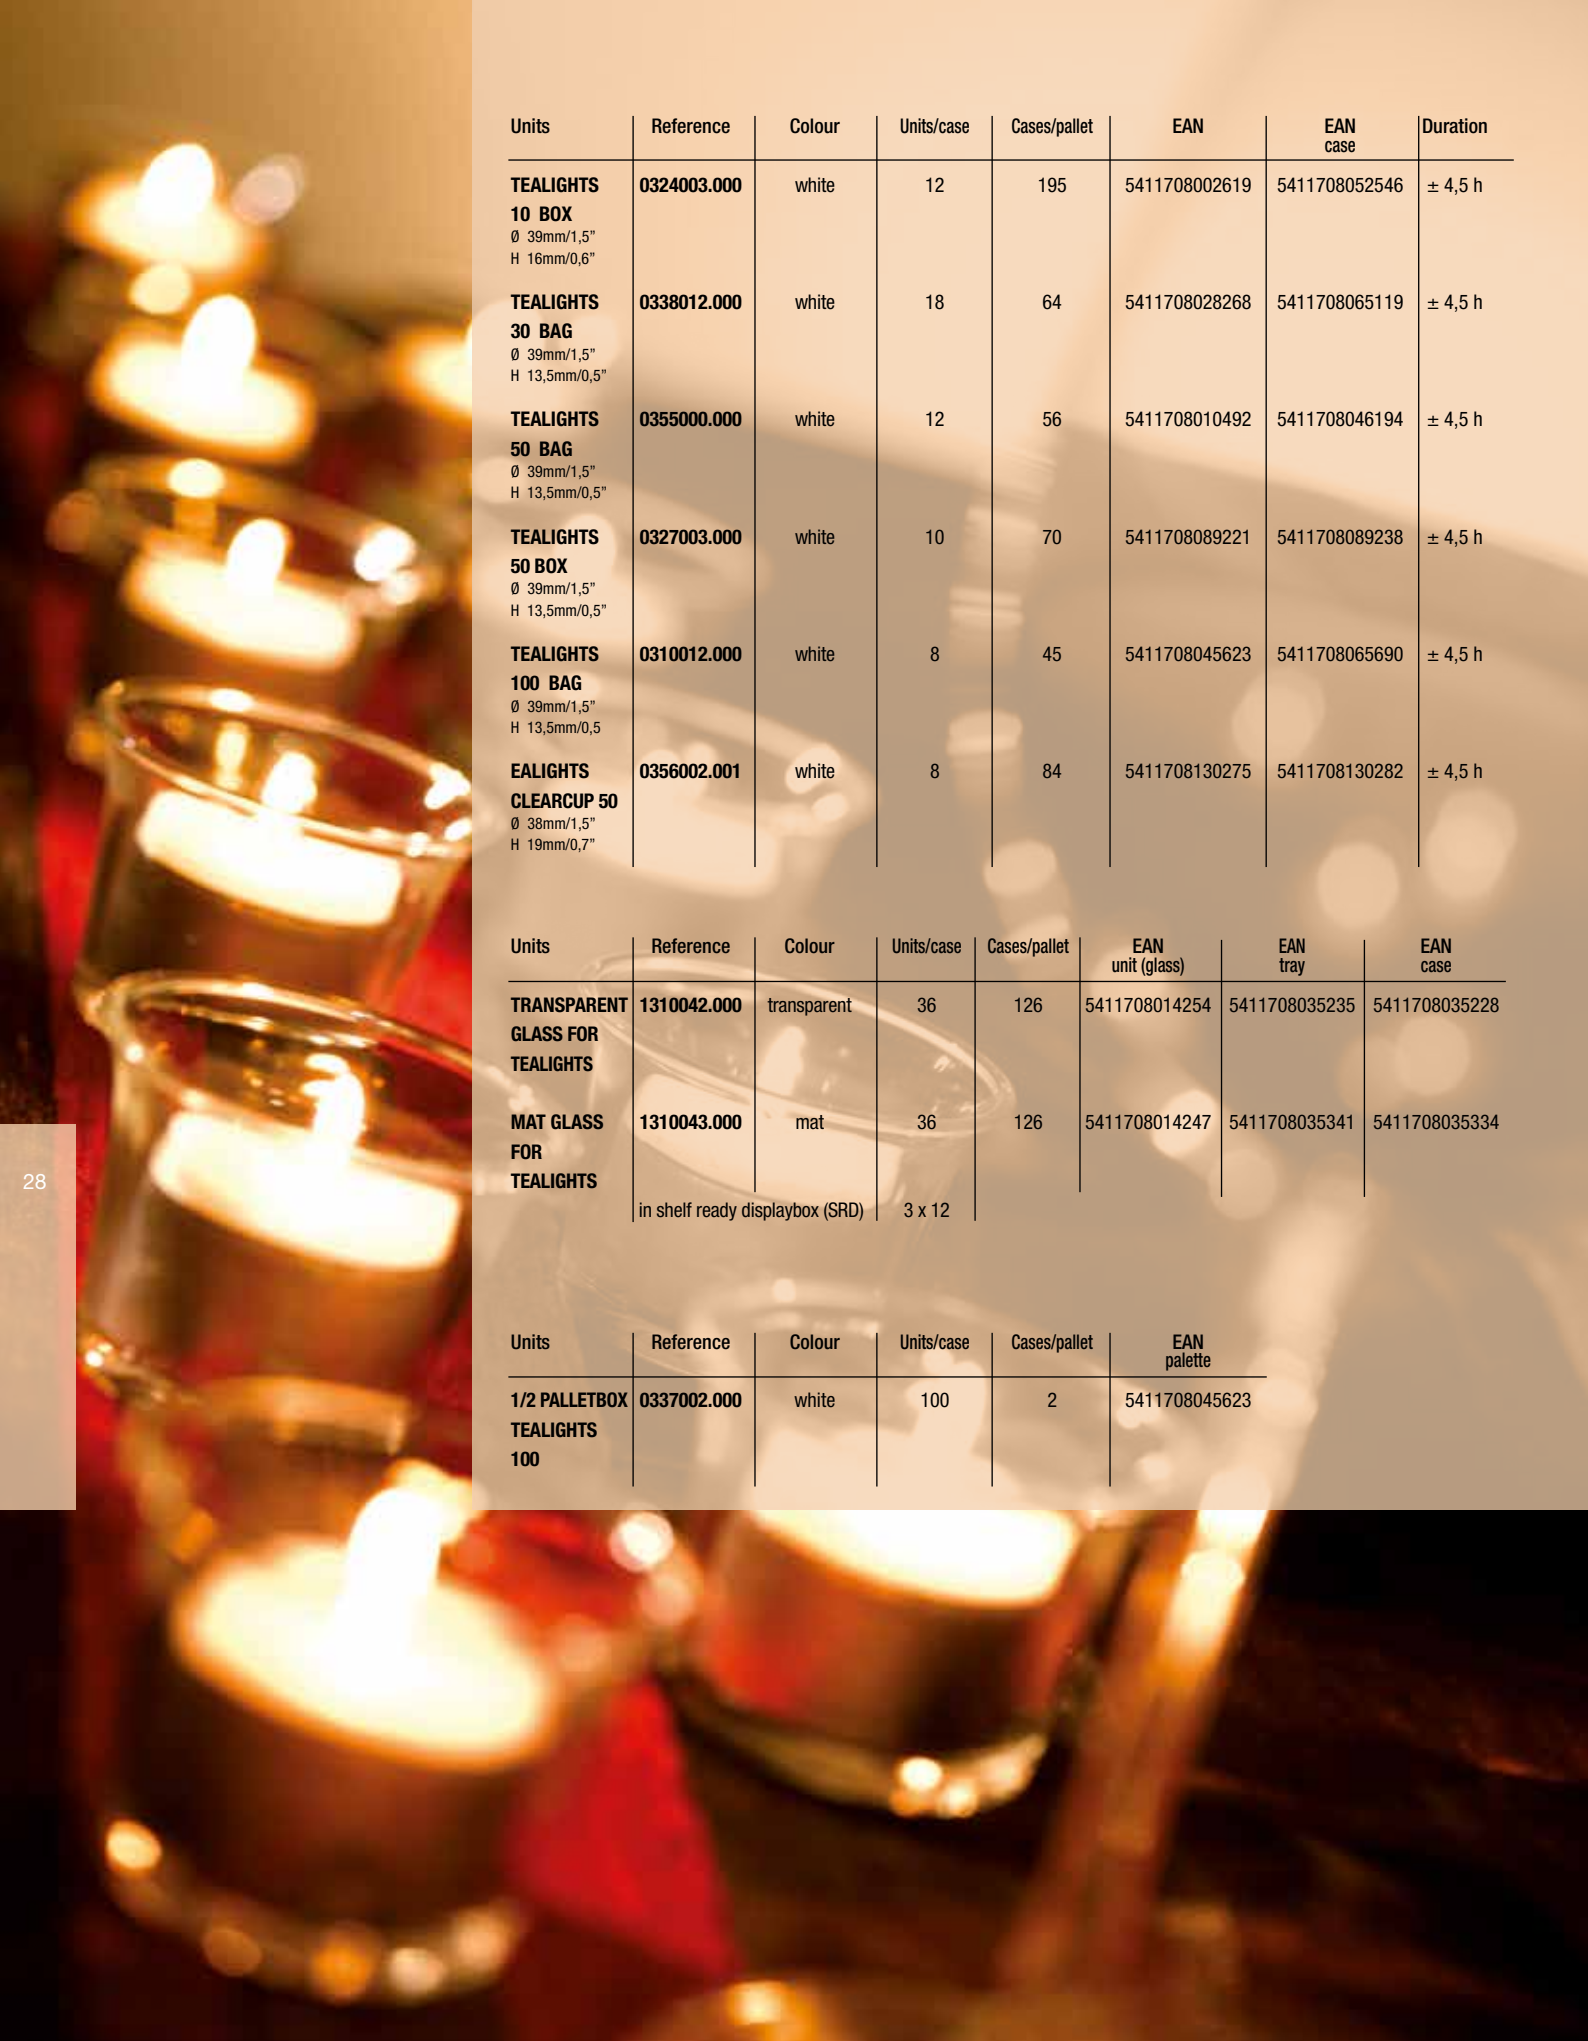

Candles, in all their simplicity, are however a wonderful opportunity to create the perfect atmosphere. They set the tone when conviviality, warmth and hominess are called for. The variety in their shape, colour and size make a perfect marriage with each and every interior. Sometimes candles can be a defining part of the interior. Moreover, whether they are in the foreground or background, they radiate a special warmth and light that will always be the candle experience.
